

PREMIUM MELAMINE MAYA FROM ELITE GLOBAL SOLUTIONS

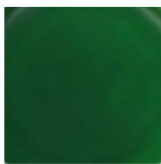

Four radiant color options, including Green (CG), Red (RG), Purple (PG), and Cream (CG) exemplify the glazed appearance unique to each individual piece.

Ruffled flared edges, a glossy hammered surface, and bright colors define this one-of-a-kind product line. This line is complete with coupe plates, irregular edge plates, pasta and salad bowls, and side dishes. The color-changing appearance is due to a special manufacturing process where a glaze is carefully added by hand to each piece.
